SUMMARY

Product Designer with 3.5+ years of experience designing enterprise and B2B software products across complex workflows and multi-persona user journeys. Skilled at collaborating with cross-functional teams to solve ambiguous product challenges, leveraging research, analytics, and iterative experimentation to improve user outcomes. Comfortable working with AI-assisted design and prototyping tools to accelerate workflows and rapidly bring ideas to life. Experienced in translating business goals and user needs into scalable product experiences from concept through launch.

LANGUAGES & TECHNOLOGIES

UX & Product : Interaction Design, Wireframing, Prototyping, Usability Testing, Information Architecture, User Research, User Journey Mapping, Heuristic Evaluation, Responsive Design, Accessibility, Visual & Interaction Design Principles

Design: Figma, Miro, Adobe XD, Illustrator, Notion

System & Collaboration: Agile, DevOps Workflows, Cross-functional Collaboration, Stakeholder Reviews, Enterprise SaaS Design, Design Systems, A/B Testing, Research & Data-informed Design

AI-Assisted Prototyping: Figma AI, Claude, ChatGPT, Stitch, Lovable

EXPERIENCE

The Bigword

Product Designer

Pune, India

March 2025 – Present

- Led end-to-end design of multi-persona product experiences across three interconnected user portals, optimizing user journeys and task completion workflows for enterprise customers and operational teams.
- Partnered with product managers and engineers to evaluate competing user and business needs, facilitating design decisions and effectively communicating design rationale to stakeholders to improve delivery efficiency and reduce review cycles by 30%.
- Reduced engineering handoff ambiguity by 25%, as measured through sprint feedback, by working iteratively with agile engineering teams to validate feasibility and ensure visual language and interaction patterns aligned with the design system.

Datart Infotech

UI/UX Designer

Pune, India

April 2023 – February 2025

- Improved project delivery efficiency by 30% across multiple concurrent client engagements by introducing Agile-based design sprint workflows using Figma and Miro.
- Delivered responsive product experiences across 10+ client initiatives, using research insights, storyboards, and high-fidelity prototypes to improve usability and engagement.
- Accelerated design turnaround time by 20% through creation of reusable UI patterns and standardized design workflows across parallel projects.

Factorshub Solutions Pvt. Ltd.

Associate UI/UX Designer

Remote

October 2022 – January 2023

- Delivered sprint-ready feature designs within 100% of planned release timelines by collaborating directly with the CTO and engineering team throughout Agile development cycles.
- Identified UX drop-off points through workflow audits and redesigned onboarding and verification experiences for enhanced usability.
- Redesigned candidate verification workflows for FactSeal, a background screening mobile application, during a 3-month product redesign engagement.

EDUCATION

VelTech Rangarajan Dr. Sagunthala R&D Institute
B.Tech Computer Science & Engineering

Chennai
2018 – 2022

PUBLICATION

OraB A Community of Donors (ICSES 2022, IEEE)

Oct 2022

- Co-authored IEEE paper on a decentralised organ and blood donation platform.
- Led UX research and interface design for the donor-to-recipient matching flow; ran user testing across multiple donor personas.

CERTIFICATIONS

- **Enterprise Design Thinking Practitioner** – IBM SkillsBuild, 2026
- **Product Management** – JobAaj Learning, 2024
- **Google UX Design Professional Certificate** – Coursera (Google), 2022
- **UI/UX Design Fundamentals** – Together, 2022
- **Pearson MePro Level 4** – Pearson, 2022
